

## **Monitoring Checklist:**

**1. Contact the landowner,** to invite him or her to accompany the monitor.

### **2. Compile and review materials**

- Review easement
- Review baseline documentation
- Review past monitoring reports

Bring:

- Aerial photo with property boundaries outlined;
- U.S. Geological Survey topographic map with property boundaries outlined;
- Survey or other map of property bounds and features;
- Easement summary sheet or abstract, for a quick reference on restrictions; and
- A copy of the deed (restriction), if a landowner visit is planned.

It is also useful to bring:

- Camera (digital) or film;
- Easement inspection forms;
- Field measuring tape and compass or GPS; and
- Flagging tape for marking boundaries or problem areas.
